

Less Work - More \$\$ - How?: (Luigis)

Here are just some of our online ordering systems. Please view for functionality only. The graphics are for demo purposes - Luigis would supply whatever graphics, as needed. We have eCatering YouTubes as well. (both full catering & package deals).

1. eSalad Bar, complete w/ nutritional tabulation (shows only calories but 10 other nutritional values are available). <https://www.youtube.com/watch?v=yzFQtJlrHnl> (2:50)
2. **eSalad Bar** - curbside pickup and delivery options - works the same for sandwiches. <https://www.youtube.com/watch?v=poCMwO0U5bo> (2:56)
3. **Full Deli Sandwiches** - <https://www.youtube.com/watch?v=T3k0S1g7Pe8> (2:28)
4. **eBurgers** - this short YouTube demonstrates the ability to "assemble" package deals. (Instead of the fries, demonstrated you can offer a small/large potato/macaroni salad or chips & maybe a drink for a set price, for example. <https://www.youtube.com/watch?v=gkVwfoBJ4yc> (2m:44s)

Luigi's QR Code:

1. eSalad

2. eSalad

3. Full Deli

4. eBurgers

Our systems allow consumers to create & order custom sandwiches, wraps, salads & catering packages online. Using visual images of all your ingredients makes ordering very easy for all! Specialty sandwiches/salads are very easy to set up for your store especially for foods that need to be "sold off". All food images, screen location, & pricing is configured to the exact food offerings of ?Luigis. One important feature is easy access to the inventory so that the food business can show that a food item is "out of stock".
